

**Planning authority:** Kerry County Council, Co. Kerry

**Unique identity number:** RPS KY-024-001

**Address:** Derra, Brosna

**Description:** Five bay single storey hipped iron roof.  
Centrally located entrance door with single roof stack directly overhead.

**Site features:** Set on its own grounds.

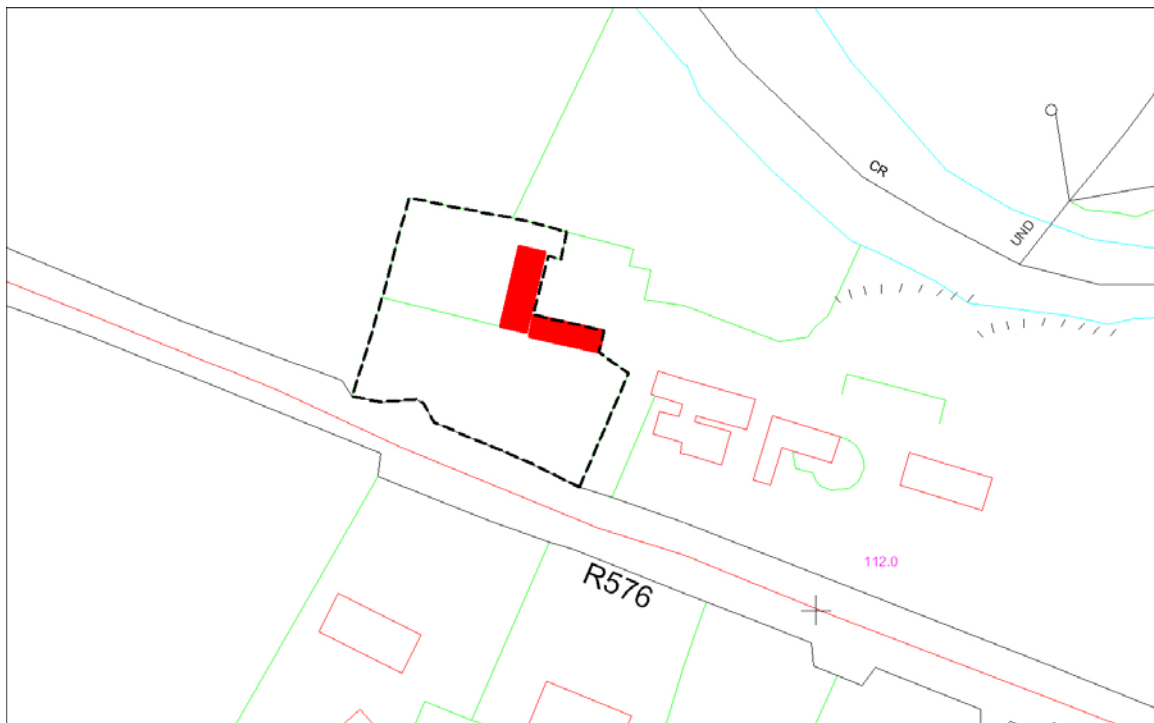

**Ordnance Survey Map:** 5464

**National Grid co-ordinates:** 113,966m, 119,964m

**Special interest:** Architectural.

**Location Map** (not to scale)

**Appraisal:** A good example of a vernacular building which retains its original form. Buildings of this style were once a common feature of the Kerry countryside but are now becoming increasingly rare. Originally thatched, a corrugated iron roof has been in place for over 60 years. The cottage retains some important features and should be included in the RPS along with its associated outbuilding because of its special architectural and social interest.
